Questions?

Provider

If you have questions, reach out to your key account manager

Patient

If your patient has any questions, they can reach out through nCompass™

The nCompass Care Coordinator will reach out directly to the patient to begin education and answer any questions about therapy.

A Device Support Specialist (DSS) will set up a consultation appointment with both patient and caregiver to deliver Optune Lua and educate on proper application of arrays.

A DSS or nCompass team member cannot provide your patient with medical advice and are trained to inform patients to follow up with their doctor regarding all medical questions.
